TABLE OF CONTENTS

Volume 187

ARTICLES

ANENE, G. and P. N. OKEKE / Implications of CP Violation in Hyperon Decays 319
ATWEH, Z. M. and D. ERYURT-EZER / Convection Zone of White-Dwarf Stars 27
BARRETO, W., L. HERRERA, and N. SANTOS / A Generalization of the Concept of Adiabatic Index for Non-Adiabatic Systems 271
CAIMMI, R. / Unseen Matter and Angular Momentum in the Milky Way and Other Galaxies: Simple Two-Component Models 167
COMERÓN, F., J .TORRA and A. E. GÓMEZ / The Characteristics and Origin of the Gould's Belt 187
DANEZIS, E., E. ANTONOPOULOU, E. THEODOSSIOU, and M. MATHIOUDAKIS / The UV Spectrum of the Binary System SZ Psc 307
EKEJIUBA, I. E., P. N. OKEKE, and S. E. OKOYE / The Nature of Protons Ejected from the Nuclei of Extragalactic Radio Sources 215
EKEJIUBA, I. E., P. N. OKEKE, and S. E. OKOYE / Origin of the Central Radio Gaps in Extragalactic Radio Sources 209
FOX, G. K. / The Theoretical Polarisation from the Obliquely Rotating Envelopes of Single Stars 219
HEGEDÜS, T., K. SZATMÁRY, and J. VINKÓ / Light Curve and O-C Diagram Analysis of RZ Cassiopeiae 57
HORVATH, J. E. / Pion Condensates in the Vela Pulsar and the Energetics of Its Glitch Events 329
JUN LIN and ZHENDA ZHANG / The Effects of Alfvén Waves on Heating Plasma in Post-Flare Loops 291
KUNDT, WOLFGANG / The 22-Year Cycle of the Sun 75
KYU-DONG OH and YOUNG-SOOK AHN / EB-Type Contact Binary DO Cas with a Large Temperature Difference 261
MENTEŞE, H. HÜSEYIN / Relation Between Element Depletion and Interstellar Reddening in the Direction of OB-Stars 127
ÖZGÜÇ, ATILA / Intermediate-Term Periodicities in the Green Corona Brightness of the Sun 197
RADWAN, AHMED E. / Nonaxisymmetric Magnetogravitational Instability of a Streaming Fluid Cylinder Ambient with a Tenuous Medium Pervaded by Transverse Varying Fields 241
RAO, V. U. M. and Y. V. S. S. SANYASIRAJU / Exact Bianchi-Type VIII and IX Models in the Presence of Zero-Mass Scalar Fields 113
SHARMA, R. C. and A. RAJPUT / Gravitational Instability of a Composite and Rotating Plasma in the Presence of a Variable Magnetic Field Through a Porous

Medium 105
SINGH, V. K. / Propagation of Cylindrical Shock Waves in Conducting Media 1
RADWAN, AHMED E. / Magnetohydrodynamic Oscillation of a Gas Jet of Zero Inertia Dispersed in a Resistive Liquid with Energy Conservation 9
TODORAN, IOAN / Equipotential Surfaces in Close Binary Systems: Remarks on the Time-Dependent Potential Function 119
VENTURA, R. / Frequency-Spectra Solutions for Multiperiodic Variable Stars: Analysis and Interpretation of Artificial Data 37
XIANG-PING WU / The Statistics of Multiple Gravitational Lensing and the Application of a Single Lensing Approximation 87

LETTERS TO THE EDITOR

BAYIN, SELÇUK S. / Reply to I. Yavuz, C. Battal, and H. Baysal on Slow Rotational Perturbations of Friedmann Universes 147
CHAKRABORTY, S. / Higher-Order Gravity in an $R^1 \times S^1 \times S^2$ Space-Time 135
DE SABBATA, VENZO and C. SIVARAM / Torsion, Minimum Time, String Tension and Its Physical Implications in Cosmology 149
NINKOVIČ, SLOBODAN / On the Local Value of the Asymmetric Drift 159
SKALSKÝ, VLADIMÍR and MIROSLAV SÚKENÍK / Radiation of Cosmic Background 155
XINWU CAO and JIALÜ ZHANG / Two New Methods in Determining the Structure of Dark Molecular Clouds 143

CORRIGENDUM

Vladimir Skalský, 'A Note on the Problem of Choosing a Model of the Universe, IV', *Astrophys. Space Sci.* **176**, 313–322, 1991 163

List of Forthcoming Papers 165, 333
